

# Database of Economic Incentives (DOEI) Guidance Document

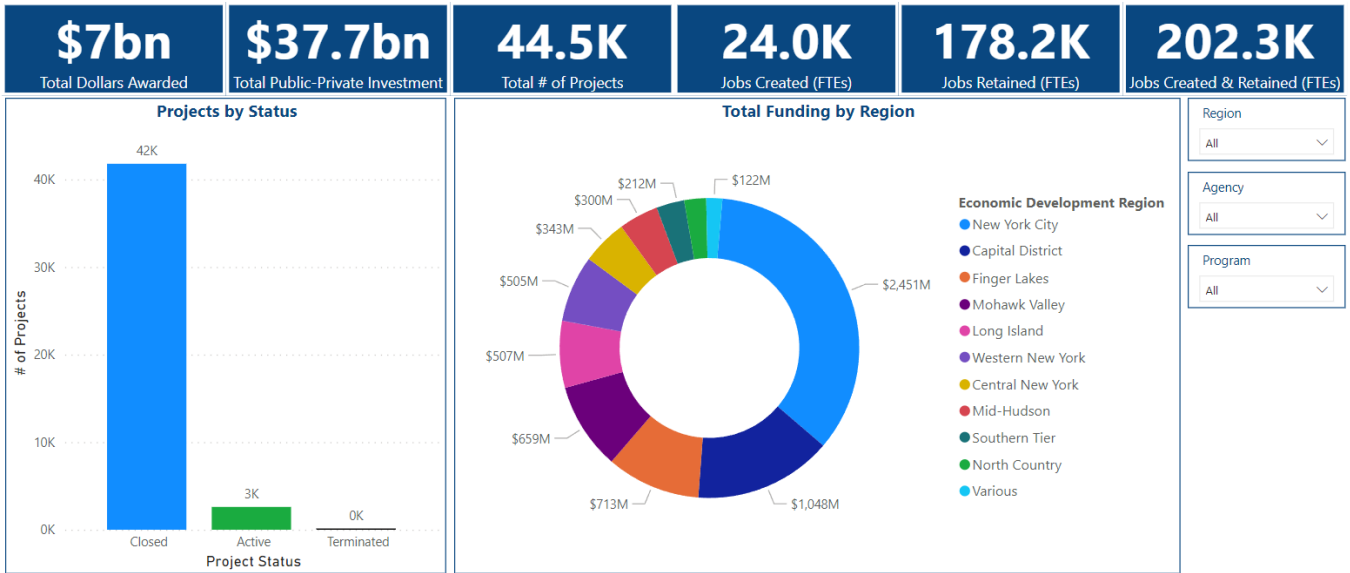

The [DOEI](#) includes ESD and other state agency loan, grant, and tax credit projects (starting after January 1<sup>st</sup>, 2018) that support economic and community development. The data is presented in a manner that allows for easy analysis and summarization of economic development projects across New York State. It contains 4 pages:

**Top Level Stats:** High level figures for total dollars awarded, total public-private investment, number of projects awarded, and jobs created & retained (FTEs). Includes a breakdown of projects by status and region, as well as filters for agency and program.

## Database of Economic Incentives

This database includes ESD and other state agency loan, grant, and tax credit projects (starting after January 1st, 2018) that support economic & community development. It contains four pages: Top Level Stats, Investments & Jobs, a Map, and an Appendix. To navigate to each page, use the buttons/arrows at the bottom of each page. For more information on how to use and interpret the database, click the info button. For complete data dictionary, FAQs, and full dataset available for download, visit [Open New York](#).

Right click & "drill through" the orange button on each page to filter the appendix based on your current selections ->

**Map:** A map of all the projects. The color represents the status of the project, and if click on a specific project, details of that project will filter in the table below. Also includes filters for project name, region, agency, program, and industry. Note: The accuracy of a project's pinned location is dependent on the quality of the address information provided in the DOEI dataset. If no address information was provided it is not plotted.

**Functionality:** The best way to get a feel for the dashboard is to dive in and start using it. Some of the more helpful functions:

1. Page Navigation: To navigate from one page to another, use the buttons/arrows at the bottom of each page.

## 2. Filtering

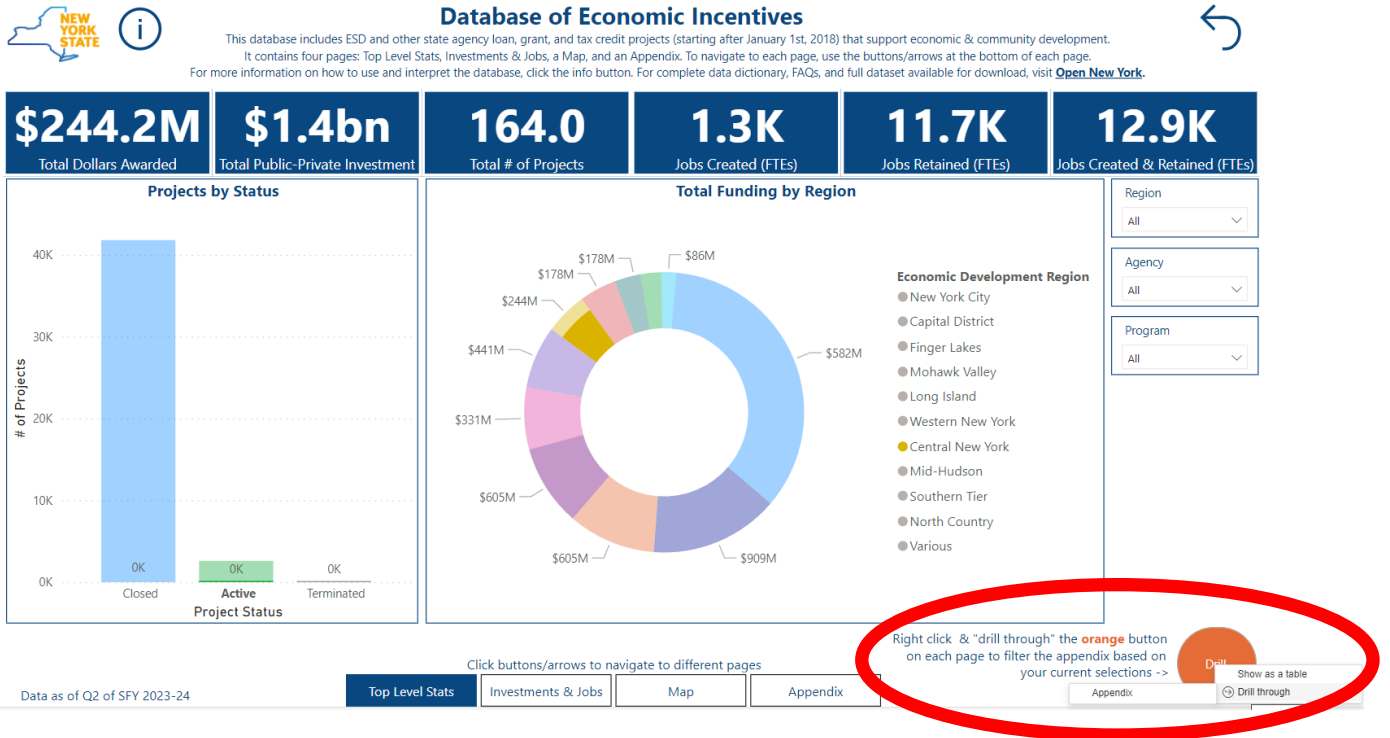

- A. Standard “check box” filters – such as region, industry, status, and agency.
- B. Graphics/Charts filters - Outside of the standard “check box” filters mentioned above, many of the graphics/charts act as filters themselves.
  - a. For example, the below screenshot is currently filtered for all projects with status = active and region = Central New York.
  - b. Multiple selections can be applied to a filter by holding down ctrl and clicking multiple data points and filters.

To clear a single filter, simply re-click on the filter/visualization itself. To clear all filters, click the back arrow (circled red above) that appears on each page.

### 3. Drill-through

To see individual project level details of the data, many of the visualizations/charts can “right click” and drill through (or use the orange drill through button on each page). Using the above example, right clicking on “Drill Through to Appendix” and selecting “Appendix” will take you to the appendix page for all projects with status = active and region = Central New York (see screenshot below).
